Re: The FairTax replaces the current tax system.

Dear [Congressman or Senator Last name]:

The Fair Tax Act, a nonpartisan bill sponsored by Representative John Linder (GA) and Senator Saxby Chambliss (GA), removes the burden of the income tax and other federal income-based taxes.

The current tax system is incomprehensible. It is beyond reform. It simply has to go.

The Fair Tax Act replaces the current tax system with a national consumption tax that:

- Allows Americans to keep 100 percent of their paychecks, pensions, and Social Security payments.
- Provides a prepaid, monthly rebate for every registered household.
- Allows families to save more for home ownership, education, and retirement.
- Raises the same amount of money for the federal government.
- Makes American products more competitive overseas.

I urge you to heed the vast majority of voters who will surely support you if you are seen as responsible for passage of this historical tax reform measure.

As a constituent, I would like to know where you stand on the FairTax.

Sincerely,

Your Constituent
