Dear Sir/Madam,

The greatest **hope** for individual economic opportunity lies in energizing American business. I ask that you be a leader for bringing competitive advantage back to U.S. companies by strongly supporting H.R. 25, the FairTax bill. Help American business compete on a global scale by eliminating the current punishing tax code and replacing it with one that will encourage export, accelerate job creation, and invigorate the U.S. economy.

H.R. 25 is real economic stimulus that will promote growth and prosperity.

Show leadership by actively working for the passage of H.R. 25.

Kind Regards,
