

The Honorable [House Member Name Here]
United States House of Representatives
[Applicable House Office Building]
Washington, D.C. 20515

Dear Sir/Madam,

We are reminded, almost daily, that our Social Security and Medicare funds will soon be depleted because more benefits will be paid out than taxes collected. I worry that the taxes that I have paid into this system will not be available to my family and me when I reach retirement age.

There is a solution to this problem that does *not* involve tax increases. That solution is the FairTax, H.R. 25. As a voter in your district, I urge you to join the ground swell of support for this plan and to encourage others in congress to follow your lead.

Sincerely,
